

WEIGHT FILLER LASER SCANNER GUARDING UPGRADE

OEM UPGRADES

Space saving, flexible and customizable laser scanner guarding upgrades for Federal and EPSI weight fillers

High-performance, space saving and customizable laser scanner guarding which is offered as an option on all new Federal weight fillers is now available as an Aftermarket OEM Upgrade for both Federal and EPSI weight fillers.

Driver & Secondary Laser Scanners

Laser Scanner Driver - Mounted

FEATURES AND BENEFITS

- Fully configurable and customizable laser scanner guarding eliminates physical guard doors
- No physical guard doors = space savings
- No physical guard doors = less cleaning, fewer harborage points
- Laser scanning technology eliminates the hassle of aligning light curtain transmitters and receivers
- Laser technology enables customizable and configurable pass-through or exclusion zones:
 - Helps eliminate unnecessary stoppages.
 - Helps accommodate cramped line layouts.
- Multiple types of protection zones, including Warning zones and Danger zones are supported
- Zones can be simple or complex shapes

UPGRADE KIT INCLUDES

- Two Laser Scanner Drivers with displays
- Two Secondary Laser Scanners
- Two mounting posts with mounting brackets and hardware
- Cables and wiring harness
- System documentation
- System programming and testing
- Installation and field programming by a Federal field service technician is required.
- Installation and start-up will require 8 to 16 hours depending upon filler configuration
- To request a quotation please call Federal at 414-384-3200 or e-mail us at Federal@ProMachBuilt.com. Please have the serial number of the filler ready or include it in your e-mail.
